

# FLASH 008

Flash 008 is the mechanical key cutting machine for **flat cylinder and vehicle keys**. It cuts also **cruciform keys** and keys with long necks, tip stop and flip mechanisms.

**CE** Flash 008 has been designed and manufactured in conformity with CE mark European standards.

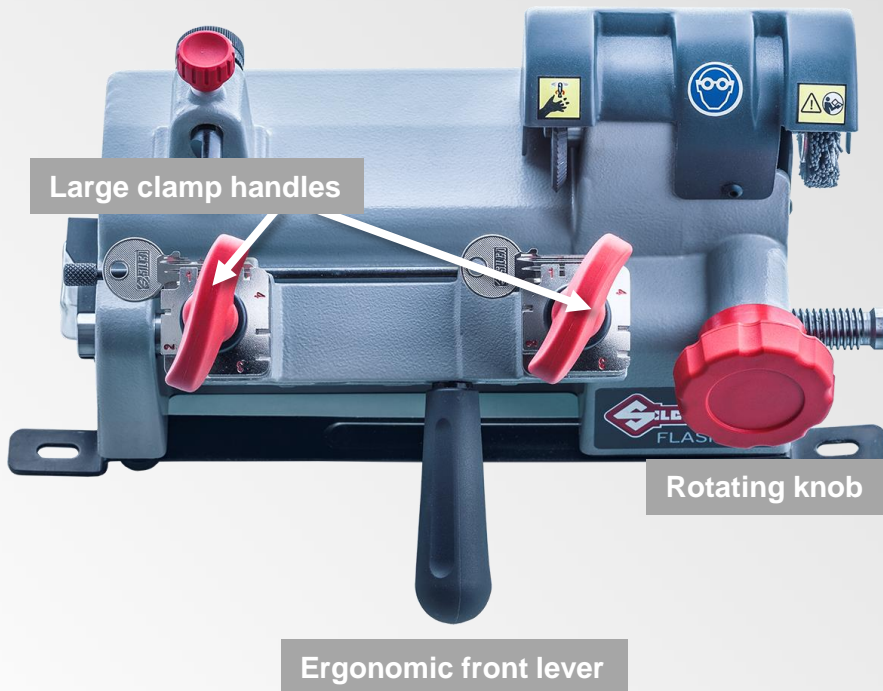

# FLASH 008

## Flash 008 - Plus

- Long-lasting materials and finishes.
- Lightweight and compact, perfect for small shops and mobile use.
- Smooth carriage movements.
- Nickel plated, four-sided clamps with ergonomic handles.
- AlTiN coated cutter for longer life.
- Safe for the user.

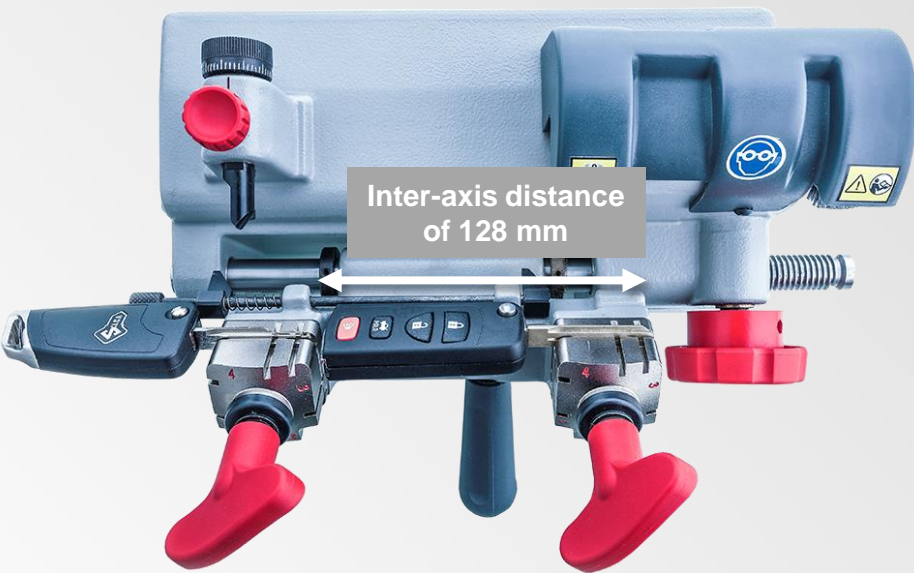

# FLASH 008

## Smooth carriage movements

- Two large, ergonomic clamp handles tighten with a minimum of force to hold the key securely.
- The space-saving rotating knob ensures precise horizontal movements.
- The carriage can also be easily moved manually using the front lever.

# FLASH 008

## Four-sided clamps mean flexibility of use

- The four-sided clamps allow virtually all flat keys present on the market to be cut, whilst the nickel coating means a longer life.
- The inter-axis distance of 128 mm between the clamps enables keys with longer necks or flip car keys to be easily cut.

# FLASH 008

Micrometric  
tracer point

Easy clamp  
rotation

## Optimized calibration and clamp rotation

- Flash 008 is equipped with a tracer point adjustment system for fast, precise calibration.
- The clamps can be quickly and smoothly rotated without needing to be removed first.

# FLASH 008

AlTiN coated  
cutter

Teflon coated  
bush

## Resistant-to-wear components

- The cutter is AlTiN (Aluminium Titanium Nitride) coated for longer life\* and oxidation resistance even at temperatures up to 800°C.
- The Teflon-coated bush gives protection to the carriage shaft and guarantees a smoother, quieter movement.

\* AlTiN coated cutting tools typically last between 3 and 10 times longer than uncoated tools.

# FLASH 008

Compact dimensions

Removable fixing  
bracket

## Space-saving solution for fixed or mobile use

- The fixing bracket, supplied as standard, allows the machine to be secured to the work-bench.
- Flash 008 is lightweight, compact and easily transportable.

# FLASH 008

Brush in tynex

Safety  
on-off switch

## Safe for the user

- The on-off switch features a safety cut-out for user protection. The machine needs to be manually re-started after a power interruption.
- The de-burring brush in 'tynex' is housed behind the protective shield.
